Name of the Institute: ICAR-Directorate of Coldwater Fisheries Research, Bhimtal

Recycling the waste water: Campaign on cleaning of sewage and water lines, awareness on recycling of waste water, water harvesting for fish culture, kitchen garden in residential colony

Awareness on cleaning of sewage and recycling of waste water, water harvesting for fish culture, kitchen gardens was organized at the residential colony behind Vikas Bhawan, Bhimtal. Awareness on use of waste water for fish culture was created amongst the people. The waste water can be utilized to produce natural food for fish and other aquatic organisms. Awareness was also created on the use of waste water in the kitchen gardens, horticulture, floriculture and agriculture purposes, however proper care needs to be taken up to avoid use of water mixed with soap, detergents etc.
