

**Date: 5.10.2024**

**Name of the Institute: ICAR-Directorate of Coldwater Fisheries Research, Bhimtal**

**Name of Activity:** Sanitation and cleaning of RAS Unit, Feed mill, Wetlab, and adjacent areas inside DCFR Campus

As part of the Swachhta under Special Campaign 4.0, sanitation drive was conducted inside the feed mill, wet lab and other nearby areas inside the institute campus. The staff actively participated in an extensive cleaning drive that targeted the RAS Unit, Feed Mill, Wetlab, and surrounding areas. The objective was to create a clean and efficient work environment, vital for the smooth operation of these facilities. Cleaning the RAS unit was essential to avoid contamination in fish culture, while the Feed Mill and Wet lab were sanitized to prevent any infestation in these areas.
