

Date: 27.10.2024

Name of the Institute: ICAR-Directorate of Coldwater Fisheries Research, Bhimtal

Name of Activity: Sanitation and Clening of Public place in Champawat

Under Special Campaign 4.0, the cleaning of Dangibaz Temple was done by the staff members of the Experimental Fish Farm ICAR-DCFR , Champawat. Sanitation and cleaning of temple play a vital role in community well-being, health, and aesthetics. Regular cleaning and maintenance are essential to ensure these areas are safe, inviting, and conducive to social interaction. This initiative was aimed to develop educational campaigns to raise awareness about the importance of cleanliness and encourage volunteer initiatives. Area in front of the temple and path along the temple were also cleaned.

This collective effort was focused on educating people about cleanliness is crucial for health,community pride, and local economies. By addressing challenges and implementing effective strategies, communities can ensure that their public spaces remain clean, safe, and enjoyable for everyone.
